University of Moratuwa IEEE Student Branch

WHAT IS THIS STAGE?

- Each team should submit a video showcasing their progress.
- The video should include,
 - Brief overview of the problem being addressed
 - Implementation plan of the proposed product
 - Key components and technologies used
 - Current status of the product
 - Issues or limitations in the current version
 - Next steps in the development process
- The top teams will qualify for the finals.

VIDEO SUBMISSION

- The video must clearly explain the current progress of your product.
- Videos will be evaluated based on the judging criteria.
- You may use any style for your video presentation (e.g. animations, screen recordings, etc.).
- The video file size must not exceed 100 MB.
- Try to keep the video duration between 3 to 8 minutes.
- If the file size exceeds the limit, use a website to compress your video.

JUDGING CRITERIA

Criteria	Marks Allocated
Identifying components needed	20
Explain clearly how they use	20
Identify challenges when using them	20
Innovation	10
Originality	05
Creativity	05
Feasibility	15
Quality of delivering video presentation	05

TIPS

- Research and identify suitable technologies for implementing your product.
- Clearly explain the technical approach to your product implementation.
- If you have physical devices, feel free to demonstrate and explain them in the video.
- You may use diagrams and illustrations to enhance your explanation.
